

ABOUT SYNTHETICS

Tribù only uses high-grade, mass-dyed polypropylene for its collections that include synthetic components. The material guarantees an extremely high resistance to water, frost, heat, salt and chlore, mould and mildew. Besides being UV-stable and stain repellent, it is also anti-static.

GENERAL GUIDELINES

- Cleaning should be done preferably during cloudy weather or in the shade. Make sure your furniture is cooled down before you start.
- Beware of sensitive flooring and wear protective gloves.
- Do not use any abrasive sponges, steel brushes, wonder sponge or any abrasive/caustic cleaner.
- Do not use a high pressure cleaner nor a steamer.
- Make sure your furniture is clean and completely dry before you apply protective products.
- Storage during winter time or long absence: before storing, we recommend good cleaning and protection of your furniture. Store only in a dry, unheated and well-ventilated room and never use non-breathable plastic covers. Tribù offers custom-fit protective covers. Contact your dealer for more info.

RECOMMENDED PRODUCTS

1. Synthetics Super Cleaner
2. Synthetics Protector

CLEANING

- The frame of our furniture with a synthetic seat/back is made of powdercoated aluminium. We recommend to clean the frame first.
- Synthetics are easy to clean with clear water, a pH neutral soap and a soft hand brush. Always rinse well after cleaning.
- Green deposits and persistent stains can be removed with **Synthetics Super Cleaner (1)**.
- Mist the surface with some clean tap water, for example with a plant sprayer.
- Spray the Synthetics Super Cleaner in all directions onto the surface and let the cleaning agent soak for 1-2 minutes. Make sure the surface stays moist to keep the cleaner active.
- Use a soft hand brush, making circular movements and let the cleaner soak for another minute.
- Finally rinse the furniture well with clean tap water and remove excess water with a clean microfiber cloth. Let the furniture dry in the open air.

PROTECTING

- For extra protection, we recommend using **Synthetics Protector (2)** once or twice a year. This product applies an invisible film and reduces the adhesion of dirt.
- Shake the product well and spread some onto a clean microfiber cloth.
- Gently rub the product onto the surface making circular movements.
- Let the furniture dry in the open air.

ATTENTION

- Sharp objects should be avoided as they may cause scratches.
- Should you stack the chairs to store them, we recommend placing some protection between the chairs.
